7 Habits of Highly Fit People

Lots of people ask me how to quickly and easily get fit. While I know they are hoping for a simple answer, the reality is that getting and staying fit is a lifestyle, not a quick fix.

So what do fit people do in their "healthy lifestyle"? Take a peek with the following 7 Habits of Highly Fit People:

Habit #1: They Don't Buy Junk

Fit people know that if they keep junk food in the house it will land on their waist sooner or later. So they don't buy any. Even buying junk food for your kids or spouse is not advised since 1) you'll likely eat some of it eventually, and 2) your loved ones shouldn't be eating that junk either. It's called junk for a reason.

Rid your home of chips, cookies, candy, baked goods, pre-packaged snacks and anything else that belongs in a vending machine. Replace the above with fresh fruit, veggies, nuts and other healthy whole foods snacks.

Habit #2: They Have Priorities

Fit people make exercise a priority. Along with keeping a job, paying the bills and going to the doctor, exercise is an important part of their lives. What I've found is that fit people put exercise before leisure time. Sure, fit people enjoy leisure, but it is scheduled around their workout time.

Treat exercise time with the same importance that you would a business meeting or trip to the dentist.

Habit #3: They Stop When Full

Fit people stop eating when they feel full. Sound simple? It is, but how many times have you stuffed yourself simply to clear your plate? Or how many times have you eaten another piece of cake despite being stuffed?

The next time you feel full, take it as a sign to stop eating. Yes, even if your plate isn't empty.

Habit #4: They Push Themselves

When Stephanie first came to Coach Berry she was not only overweight but was also suffering from such severe back pain she could not even stand on to the basin. There is no pain now as Stephanie is extremely physically active being a mother, career woman and wife. **Full story and more photos at www.rb-berry.com**

Positive results everytime inspires everyone who joins Dare to Be Fit. Who wouldn't be excited to look like this?

Not only do fit people make time to go to the gym, they challenge themselves during each workout. While it is easy to simply go through the motions while exercising, you're cheating your body out of great results when you don't push yourself. Exercise should make you sweat, make your muscles burn, and leave you with a feeling of accomplishment.

Find ways to make each workout more challenging. For competitive people, the best way to push yourself is to exercise with a friend of similar strength. Another great way to challenge yourself is to set small attainable goals. These goals could be to push heavier weight, to sprint longer, or to do cardio at a higher intensity setting.

Habit #5: They Don't Eat and Watch

Fit people know that eating in front of the T.V. is mindless eating. When your attention is on your entertainment and not on your food, then you'll be less tuned in to what and how much ends up in your mouth. Eating in front of the T.V. is also very habit forming. Ever notice how you crave munchies just as a reflex of sitting in front of the T.V.?

Eat before or after your entertainment and pay attention to what and how much goes into your mouth.

Habit #6: They Drink Water

Fit people drink lots of water. And not just in addition to other beverages, but instead of them. Water is their main drink, while other drinks are occasional treats. Calorie-filled drinks are one of the quickest ways to consume excess calories which quickly turn into fat. Consider water your beverage of choice. Drink plenty of it each day and drink other beverages only a few times each week.

Habit #7: They Are Supported

Fit people don't leave their motivation to chance. They know that if their personal trainer, boot camp instructor or workout partner is waiting for them, then they are less likely to skip a workout. It is so easy to hit snooze or to talk yourself out of the gym as soon as your behind hits the couch after work. Fit people take the option of skipping out of the equation.

3 Anti-Fitness Habits

The following 3 habits will result in weight gain faster than you can say 'anti-fitness habits.' Break these habits quickly.

1. **Drinking Calories.** Soda pop, coffee drinks, smoothies and fruit juices are filled with calories. Since liquids won't give you a 'full' feeling, these drinks slide by without notice of how many extra calories you're getting. Stick with water to avoid extra calories.
2. **Not Exercising.** Skipping the gym day after day, week after week, and month after month will lead to muscle loss and a reduced metabolism. Exercise 3-5 days per week to keep your muscles strong and metabolism high.
3. **Eating a Heavy Dinner.** Eating a large heavy dinner sets you up for weight gain. Instead of eating the majority of your calories late in the day, spread it out over the entire day.

Delicious Kale and Pinto Bean Soup

There's nothing better than a warm bowl of soup on a chilly fall day. This soup contains kale, a superfood that is packed with vitamins, minerals and cancer-fighting enzymes. It contains loads of vitamin A, vitamin C, B6, manganese, calcium, copper and potassium.
